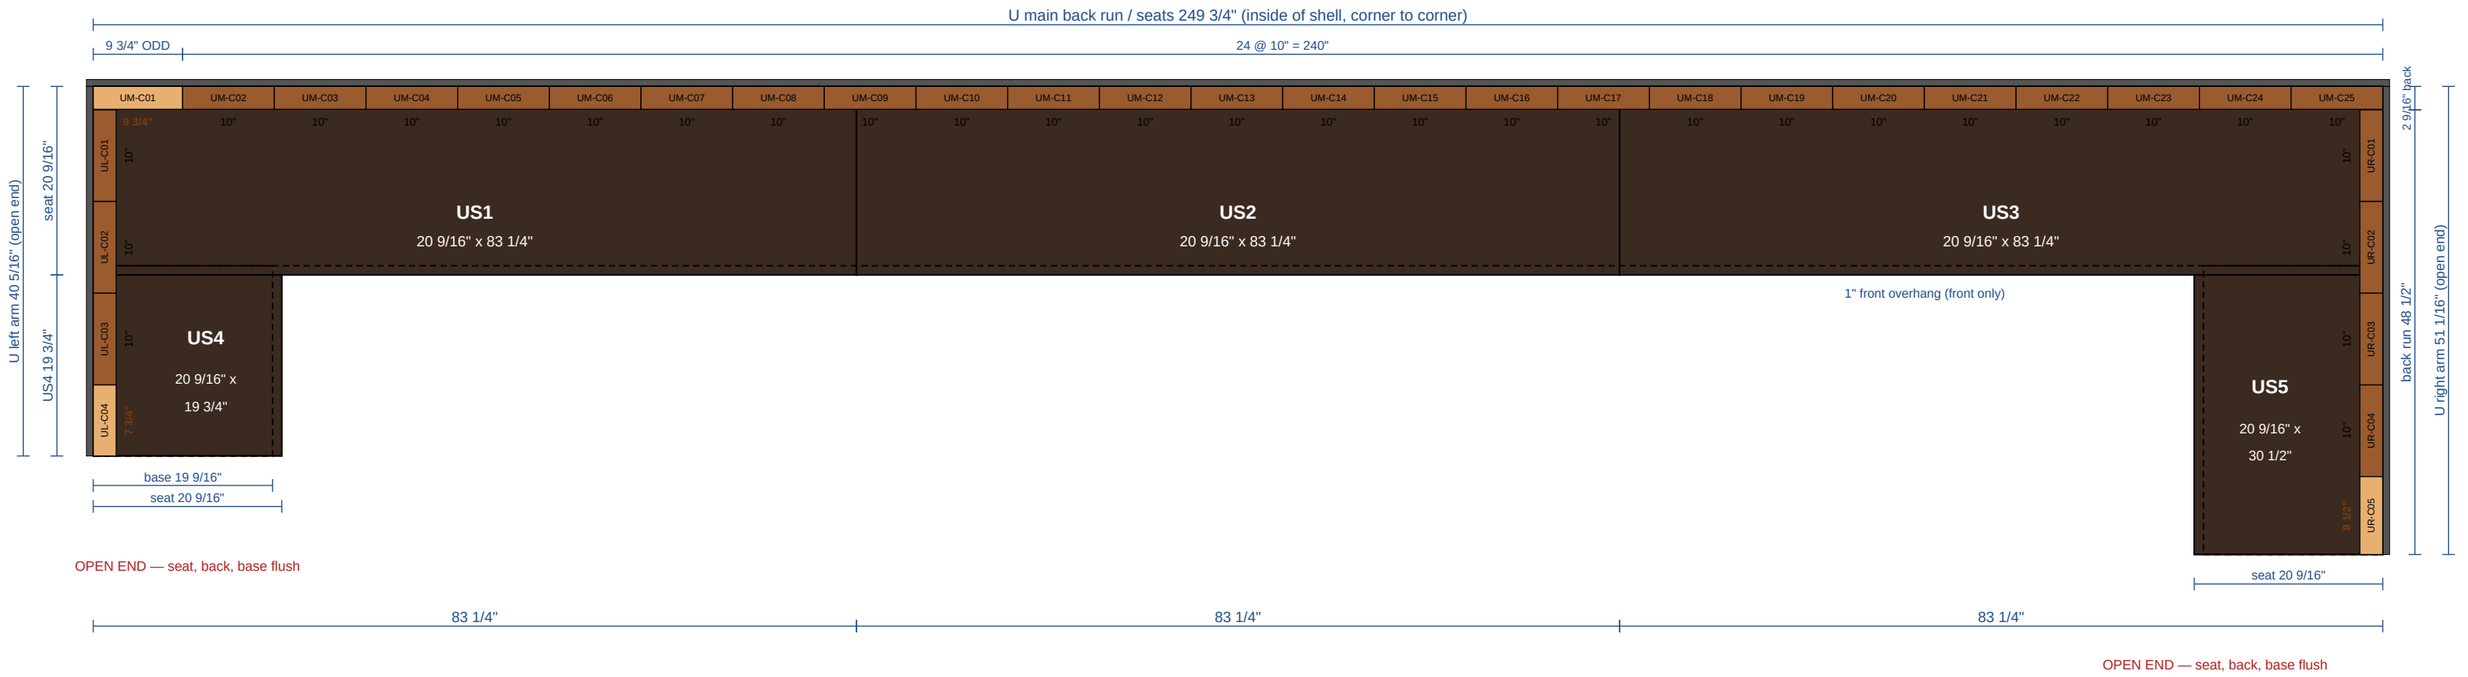
Scale approx. 1:16 1/2 (1" on paper = 16 1/2" real when printed full size on 11x17). Wall / back side at top. Seat depth 20 9/16" (seat runs under the backs) — PRIMARY.



NOTES

Corners: U main back runs through both corners; arm backs start at the main back face (2 9/16" from wall) and butt it.

U main seats run wall-to-front under the backs; arm seats butt the main seat front edge (at 20 9/16").

Check: U left 2 9/16" + 37 3/4" = 40 5/16" = 20 9/16" + 19 3/4". U right 2 9/16" + 48 1/2" = 51 1/16" = 20 9/16" + 30 1/2".

Seat overhangs the base 1" at the FRONT only; sides and open ends are flush with the base.

Channel boards stand on the rear of the seat along the wall/shell. Odd pieces: UL-C04 7 3/4" at open end; UM-C01 9 3/4" at left corner; UR-C05 8 1/2" at open end.
